

# THE DAILY APPEAL.

THURSDAY MORNING, JULY 23, 1857.

**MISSING.**  
The first and second volumes of the Weekly Appeal are missing from us, and we hope they are not authorized to us, and we hope they are to any one else. Those having them in possession will do us a great favor by returning them.

All persons are requested not to purchase papers from our regular carriers, as they are not authorized to sell them. An observance of this request will greatly oblige the publishers.

See the notice in another column in regard to applications for positions in the Public Schools.

We are indebted to Mr. Mulligan, clerk of the fast steamer E. H. Fairchild, for a package of New Orleans papers.

There will be a barbecue and dance to-day at Clark's place, two miles out of the Raleigh road. Everybody is invited to attend.

Gov. McRae, of Mississippi, left for Victoria yesterday, having tarried several days in Memphis. He goes directly to Jackson, seat of government.

The "Big City Cadet" will have a meeting at Exchange Buildings to-night. Let all the members, as well as those who will be present, as important business will come before the company.

At ENNIS, Miss.—We learn by a note from the Postmaster at Ennis, that the Post Office at that place, with the store belonging to Mr. H. F. Turner, were entirely consumed by fire on Tuesday morning. The books and papers are an entire loss. The fire was the work of an incendiary. Loss \$200.

**MERCHANTS AND TEACHERS.**—In a note from our friends, Lamm, Walker, and Clark, we learn that their school, which had been opened for the summer, has been discontinued. They have made arrangements to teach in their home, and will make large additions in a few days. Their arrangements are such that they can furnish country merchants in small or large quantities, at any time, upon terms that will justify them in keeping, instead of New York and Philadelphia. Give them a call.

Poor J. N. WRENCH.—This gentleman, we learn, resigned his position in the Medical Department of the University of Tennessee, to enter the profession of Ancient Languages in the LeGrange Seminary College, to which he was invited some time since. Doctor WRENCH enjoys a deservedly high reputation throughout the South, both as a linguist and a divine, and the State of Tennessee may feel just pride in the fact that he is soon to be one of her adopted sons.

SHELBY HIGH SCHOOL.—As a means of placing this institution on a more solid basis, and of increasing its facilities for usefulness, we propose to establish a fund of \$10,000, to issue one hundred scholarships at fifty dollars each, which shall be good for two years' tuition. This will enable him to secure the services of an additional professor, and also to add to the instruction of Agricultural Chemistry. Study is much needed in this branch of study, and we trust that encouragement and success which this school will receive will be a decided stimulus to the growth of agriculture in the South.

FRANCIS.—Our city is interested at present with an immense number of worthless cats, who make night hideous with their noise, and are in every one's way in the day-time. There is an abundance upon the statute book which prohibit these running at large under certain penalties, but owing to the neglect of the officers of law, who are too busy to take up the time, they will not be enforced. It is in every one's best interest to have these cats removed.

EX-PROFESSOR OF LAW.—An old friend, who is no longer with us, has written to us, enclosing a copy of his will, which was executed at the time of his death. He was a man of great worth, and we hope that his memory will be honored.

W. M. SWANSON, of The Adams Express Company, has placed an order under obligation for late Eastern papers.

THE FRANKLIN REVIEW, of the 16th inst., has a very forcible article on the subject of the new high school.

"OUR COUNTY has been visited by heavy rains lately, and it is found that wheat and oats will be much injured in consequence. We are glad to hear, however, that we are not alone in this.

JOHN H. FAIRCHILD.—Our city is interested at present with an immense number of worthless cats, who make night hideous with their noise, and are in every one's way in the day-time.

FRANCIS.—Our city is interested at present with an immense number of worthless cats, who make night hideous with their noise, and are in every one's way in the day-time.
